1. Brand Identity

Logo variants, clear space and usage rules

The MK Consulting & Advisory logo is the primary visual identifier of the firm. It must be applied consistently and correctly across all touchpoints — documents, presentations, digital assets, and print materials.

1.1 Logo Variants

Three approved variants exist. Selection is determined entirely by background colour. No other variants are permitted.

WHITE VARIANT Use on Navy or dark backgrounds	**GOLD VARIANT** Use on white or light backgrounds	**NAVY VARIANT** Use on white or light grey backgrounds

1.2 Logo Usage Rules

Rule	Specification
Minimum Clear Space	Equal to the height of the "M" in the MK wordmark on all sides.
Minimum Digital Size	120px width minimum.
Minimum Print Size	25mm width minimum.
White Logo Placement	Navy or Dark Grey backgrounds only.
Gold Logo Placement	White or Light Grey backgrounds only.
Navy Logo Placement	White or Light Grey backgrounds only.
Never	Distort, rotate, recolour, stretch, or place on low-contrast backgrounds. Do not place on busy photography without a Navy/Dark overlay.

> *The logo must never be recoloured, distorted, rotated, or placed on backgrounds that reduce contrast or legibility. When in doubt, use the White variant on a Navy background — this is the most authoritative application of the MK brand.*

2. Colour Palette

Six approved colours — ratios, roles and rules

The MK Consulting colour palette conveys trust, professionalism, and executive authority. Six colours are approved. No others may be introduced. No gradients are permitted under any circumstance.

2.1 Approved Colour Swatches

Navy Blue	Gold	White	Cool Grey	Light Grey	Dark Grey
#1A365D	#F59E0B	#FFFFFF	#64748B	#F9FAFB	#1F2937
Primary — Headings, headers, structure	Accent — CTA, rules, callouts, charts	Background — Dominant page colour	Body text, subtitles, footers	Alternating rows, panels, cards	High-contrast body text, metadata

2.2 Colour Ratio — Visual Balance Rule

Every document or presentation layout must approximate the following colour distribution. This ratio ensures a clean, professional appearance and prevents overuse of accent colours.

70% White / Light Grey	20% Navy	10% Gold

2.3 Colour Do's and Don'ts

Rule	Requirement
✓ DO	Use only the six approved colours in all documents, presentations and communications.
✓ DO	Maintain the 70 / 20 / 10 visual ratio across page layouts.
✓ DO	Use Navy for all headings, structural elements and table headers.
✓ DO	Use Gold sparingly — for accent rules, callout borders, CTA elements and chart highlights only.
✗ DO NOT	Introduce any colour outside the approved palette.
✗ DO NOT	Use gradients of any kind.
✗ DO NOT	Use coloured body text. Body copy is Dark Grey or Navy only.
✗ DO NOT	Use saturated, neon, or highly vivid tones.

> *Gold is an accent colour — not a background colour. It should never occupy more than 10% of any page or slide. Used sparingly, it creates authority and draws the reader's eye to what matters most.*

3. Typography System

INTER typeface — hierarchy, weights and rules

INTER is the exclusive typeface for all MK Consulting & Advisory communications. It was selected for its professional clarity, excellent legibility at both large display and small caption sizes, and its authority in executive and financial services contexts.

3.1 Type Hierarchy

Element	Font	Weight	Size	Colour	Notes
Display / Cover Title	Inter	Bold	28–36pt	White	Cover page only
H1 Section	Inter	Bold	18–22pt	Navy	+ Gold rule below
H2 Sub-section	Inter	SemiBold	14pt	Navy	No rule
H3 Sub-head	Inter	Medium	12pt	Navy	Sparingly used
Body / Regular	Inter	Regular	10–11pt	Dark Grey	Primary body text
Caption / Label	Inter	Light	8–9pt	Cool Grey	Footnotes, captions
Gold Sub-label	Inter	Bold	10pt	Gold	"Services Include:" style
Table Header	Inter	Bold	9–10pt	White on Navy	Navy header row
Table Body	Inter	Regular	9–10pt	Dark Grey	Alt rows: Light Grey

3.2 Live Typography Specimens

The following specimens demonstrate how each level appears when correctly applied:

Display / Cover Title — Inter Bold 28–36pt, White on Navy (cover page only)

H1 — Section Title Example

H2 — Subsection Header Example

H3 — Callout Label / Emphasis Example

Body — This is how body copy appears in all MK Consulting documents. Inter Regular, 10–11pt, Dark Grey (#1F2937). Line spacing 1.15. Paragraph spacing 8pt after. Body copy is never coloured — Dark Grey or Navy only.

Caption — Footer text, metadata and captions. Inter Light, 8–9pt, Cool Grey.

Services Include: Gold Sub-label — Inter Bold 10pt, Gold (#F59E0B). Used as inline category labels on service and principle pages.

Table Body — Inter Regular 9–10pt, Dark Grey. Alternating rows: Light Grey (#F9FAFB).

3.3 Typography Rules

Rule	Specification
Primary Font	INTER — mandatory on all formal MK documents and presentations.
Fallback Font	Montserrat — used only when INTER cannot be embedded or rendered. A technical fallback, not an alternative design choice.
Never Mix Fonts	One typeface only per document. No decorative, script, or display fonts.
Body Text Colour	Dark Grey (#1F2937) or Navy (#1A365D) only. Never use coloured body text.
Gold Sub-label	Gold Bold 10pt used exclusively for inline category labels (e.g. “Services Include:”, “Typical Impact:”, “Deliverables:”). Never use Gold for general body text.
Table Colour	Header rows: Navy fill (#1A365D), White Bold text. Body rows: alternating White and Light Grey (#F9FAFB), Dark Grey text 9–10pt Regular.
Cover Title	Display / Cover Title uses Inter Bold 28–36pt in White on Navy. This is the largest text size in the MK system — cover pages only.
Italics	Reserved for callout boxes and formal recommendation statements only. Do not use italics in body copy.
Underlining	Reserved for hyperlinks only. Never underline headings or body text for emphasis.
Bold in Body	Use sparingly — for key terms or critical figures only. Excessive bold reduces impact.
ALL CAPS	Permitted for label tags (e.g. PROGRAM CONTEXT, FOCUS AREAS) at caption size (8–9pt) only.
Icon text pairing	Icons on principle / value pages are always paired with a Gold Bold label. Icon and label are inseparable. See Section 7.3.

4. Logo Usage Examples

Correct and incorrect applications — visual reference

4.1 Correct Applications

✓ **Correct — White logo on Navy**

White variant on dominant Navy background

✓ **Correct — Gold logo on Light Grey**

Gold variant on light background

4.2 Incorrect Applications — Do Not Replicate

✗ **Incorrect — Gold logo on Gold**

No contrast — logo is invisible

✗ **Incorrect — White logo on White**

No contrast — logo disappears

Always select the logo variant based on the background colour — not personal preference. Contrast and legibility are non-negotiable. When in doubt, place the White logo on a Navy background.

5. Word Document Template

Cover page, body structure, tables, callouts and footer

5.1 Document Specifications

Specification	Detail
Paper Size	A4 (210 × 297mm | 11,906 × 16,838 DXA)
Margins	0.79 inches on all four sides (1,134 DXA)
Primary Font	INTER (Montserrat as technical fallback only)
Body Size	11pt | Line spacing 1.15 | 8pt paragraph after-spacing
Cover Background	Dominant Navy (#1A365D) — Navy occupies majority of cover page
Section Numbering	Mandatory on all sections. Format: "1. Title" then "1.1 Subsection"
Recommendations	Always in Gold-bordered callout boxes — never buried in body copy
Confidentiality	Classification on cover header band and every page footer
Page Numbers	Right-aligned in footer — "Page [n]" in Cool Grey 9pt

5.2 Cover Page — Visual Reference

The cover page must use Navy as the dominant background. Navy should occupy the majority of the cover page area. The following is the standard cover structure:

5.3 Body Page — Heading, Body & Callout Specimens

The following specimen demonstrates correct heading hierarchy, body copy and callout box formatting on a body page:

1. Section Title — Inter Bold, Navy, 32pt

Descriptive subtitle — Inter Italic, Cool Grey, 11pt

1.1 Subsection Header — Inter SemiBold, Navy, 26pt equivalent

Body copy — Inter Regular, Dark Grey (#1F2937), 11pt. Line spacing 1.15. Paragraph spacing 8pt after. Body text is never coloured — Dark Grey or Navy only. This paragraph demonstrates the standard body copy style used throughout all MK Consulting advisory documents.

> *Callout Box — Recommendation or advisory statement. Inter Italic, Navy, 11pt. Cream background (#FFFBEB). Gold left border (heavy), Gold top and bottom rules (thin).*

5.4 Footer — Every Page

A Gold top rule separates the footer from body content. Left: firm identity and confidentiality. Right: page number. Both in Cool Grey, Inter Light, 9pt.

Muigai Kamau Consulting & Advisory | mk@muigaikamau.pro | CONFIDENTIAL Page 1

6. PowerPoint Template

Exact measurements, colours and layout rules — derived from the CPF EXCO Presentation reference deck

All MK Consulting presentations must strictly conform to the reference format established in the CPF Enterprise Transformation & Execution Acceleration Program EXCO Presentation. The specifications below are extracted directly from that deck and are non-negotiable.

Slide dimensions: 10" × 5.625" (16:9). Font: INTER throughout. No exceptions to colour, size, or structural layout.

6.1 Slide Type Architecture — 5 Types

Every presentation uses exactly five slide types. The sequence follows a "sandwich" structure: dark title → light/dark content → dark closing.

Type	Background	Primary Use	Logo Variant
1 — Title Slide	Full Navy #1A365D	Presentation opening — firm name, programme title, key themes, sprint ticker	White (top-left, ~0.72"×0.72")
2 — Agenda Slide	White #FFFFFF	Contents overview — 10 items in two columns with numbered section reference	Navy (top-right, ~0.9"×0.9")
3 — Content Slides	White or Light Grey	All body slides — data, analysis, frameworks, tables, org charts, trackers	Navy (top-right, ~0.9"×0.9")
4 — Section Divider	Full Navy #1A365D	Divides major programme sections — large Gold number + White title	White (top-right)
5 — Closing Slide	Full Navy #1A365D	Programme close — Gold title, contact block right, bullet value props left	Navy (top-right, ~0.9"×0.9")

6.2 Typography — Exact Sizes (All Slides)

All sizes are extracted directly from the reference PPTX. No substitutions or approximations are permitted.

Element	Size	Weight	Colour	Location / Notes
Main title — Title Slide	**32pt**	Bold	Gold #F59E0B	Slide 1 main title, left column, w=6.0"
Section number in header	**22pt**	Bold	Gold #F59E0B	All content slides, top-left x=0.35" y=0.18"
Section title in header	**22pt**	Bold	White #FFFFFF	All content slides, x=0.98" y=0.15"

Header gold subtitle	**10pt**	Regular	Gold #F59E0B	Italic descriptor below section title, x=0.98" y=0.72"
Agenda heading (AGENDA)	**26pt**	Bold	White #FFFFFF	Slide 2, x=0.5" y=0.2"
Agenda section number	**13pt**	Bold	Gold #F59E0B	w=0.42" h=0.48" Navy box
Agenda section title	**13pt**	Bold	Navy #1A365D	x+0.5" from number box
Agenda descriptor	**9pt**	Regular	Cool Grey #64748B	Below agenda title
Card / panel heading	**14pt**	Bold	White #FFFFFF	Section headers inside content panels
Card sub-number (3.1 etc)	**11pt**	Bold	Gold #F59E0B	Inside numbered card grid
Card body / bullet text	**10pt**	Regular	Dark Grey #1F2937	11pt on dark bg
Stat callout — large number	**28–32pt**	Bold	White or Gold	KES figures, Top 5, percentages
Stat descriptor label	**9pt**	Regular	Light Blue #CCE0FF	Below stat callout numbers
PHASE / SPRINT labels	**7pt**	Bold	Gold #F59E0B	Letter-spaced, above phase titles
Phase title	**13pt**	Bold	White #FFFFFF	Below PHASE label
Phase date line	**8.5pt**	Bold	Navy #1A365D	Weeks/months range below phase title
Table header	**9pt**	Bold	White #FFFFFF	Navy header row, all tables
Table row label	**8.5pt**	Bold	Dark Grey #1F2937	Row titles in tables
Table row value / cadence	**8.5pt**	Regular	Cool Grey #64748B	Secondary row content
Status badge text	**6.5pt**	Bold	White #FFFFFF	On coloured status bg pill
Firm name — header/closing	**10.5pt**	Bold	White #FFFFFF	MUIGAI KAMAU CONSULTING & ADVISORY
Presentation type label	**7pt**	Bold	Gold #F59E0B	EXECUTIVE COMMITTEE PRESENTATION, letter-spaced
Contact block	**11pt**	Regular	White #FFFFFF	Name, title, firm on closing slide

Email — closing slide	**10pt**	Regular	Gold #F59E0B	mk@muigaikamau.pro
Phone — closing slide	**10pt**	Regular	Light Blue #CCE0FF	+254 757 808 808
Footer bar text	**8–9pt**	Regular	Cool Grey #64748B	Programme · Confidential · Date
Sprint ticker text	**6.5pt**	Bold	Navy #1A365D	On Gold sprint bar, full width

6.3 Colour Specifications — Complete Set

Use	Hex Value	Specification
Primary slide background (dark)	**#1A365D**	Title slide, section dividers, closing slide, header bands
Body slide background	**#FFFFFF**	All content slides — white base
Section number accent	**#F59E0B**	Gold — header section number, agenda numbers, PHASE/SPRINT labels
Section title text	**#FFFFFF**	White — all text on navy backgrounds
Body copy	**#1F2937**	Dark Grey — bullet points, card body text, table row labels
Secondary / descriptors	**#64748B**	Cool Grey — agenda descriptors, owner names, footer text, table values
Stat descriptor labels	**#CCE0FF**	Light Blue — text below large KES/stat figures on dark background
Sprint ticker background	**#F59E0B**	Gold bar full width, y=5.2" h=0.425" on title slide
Sprint ticker text	**#1A365D**	Navy Bold — text inside Gold sprint bar
SPRINT badge fill	**#F59E0B**	Gold fill, Navy text — marks sprint-priority items
Status: In Progress	**#1A7A4A**	Dark green — badge bg, White text
Status: Delayed	**#CC0000**	Red — badge bg, White text
Status: Scheduled	**#1A365D**	Navy — badge bg, White text
Status: Upcoming	**#64748B**	Cool Grey — badge bg, White text
Status: Sprint Gate	**#F59E0B**	Gold — badge bg, Navy text
Right-column service boxes (Slide 1)	**#1A365D+border**	Navy bg with slight border — Strategic Advisory, Execution Partnership etc
Phase 1 column header	**#F59E0B**	Gold — Sprint & Diagnosis phase header
Phase 2 column header	**#1A365D**	Navy — Design Sprint
Phase 3 column header	**#0D7C5F**	Teal/Green — Implementation & Acceleration

Phase 4 column header	**#8B1A1A**	Dark Red — Stabilization & Handover
Gold rule / horizontal divider	**#F59E0B**	Used below section title in header, and in closing slide under title

6.4 Structural Layout — Exact Measurements (inches)

All x/y coordinates, widths and heights are in inches from top-left corner of the 10" × 5.625" slide.

Element	x	y	Width	Height	Notes
Navy accent bar — top-left (all slides)	**0.00"**	**0.00"**	0.10"	0.82"	Thin navy left edge strip
Header band — main (all slides)	**0.10"**	**0.00"**	9.90"	0.82"	Full header background
MK Logo in header	**0.10"**	**0.05"**	0.72"	0.72"	White variant on dark slides
Firm name text	**1.10"**	**0.24"**	6.50"	0.38"	10.5pt White Bold
Section number (content slides)	**0.35"**	**0.18"**	0.45"	0.60"	22pt Gold Bold
Section title (content slides)	**0.98"**	**0.15"**	8.00"	0.46"	22pt White Bold
Gold italic subtitle	**0.98"**	**0.72"**	8.00"	0.20"	10pt Gold italic
Gold rule — header bottom	**0.00"**	**0.82"**	10.0"	0.02"	Full-width Gold line
MK Logo — top right (content slides)	**8.75"**	**0.07"**	0.90"	0.90"	Navy variant on white slides
Content area top boundary	**—**	**1.10"**	—	—	All content starts y=1.10"
Content area bottom boundary	**—**	**5.20"**	—	—	Footer bar starts y=5.20"
Footer bar	**0.00"**	**5.20"**	10.0"	0.42"	Dark Navy bg, Cool Grey text 8-9pt
Sprint ticker bar — title slide	**0.00"**	**5.20"**	10.0"	0.43"	Gold bg, Navy Bold 6.5pt
Title — main text (Slide 1)	**0.42"**	**1.42"**	6.00"	2.90"	32pt Gold Bold
Gold underline rule — Slide 1	**0.42"**	**4.42"**	2.80"	0.06"	Accent rule under title
Descriptor line — Slide 1	**0.42"**	**4.56"**	5.80"	0.30"	10.5pt White Regular

Right service boxes — Slide 1 (×4)	**6.85"**	**1.10"**	3.00"	0.64"	Stacked y=1.10, 1.98, 2.86, 3.74
Agenda number box	**0.40"**	**varies**	0.42"	0.48"	13pt Gold Bold — rows y=1.25, 2.07, 2.89, 3.71, 4.53
Agenda title	**0.90"**	**varies**	3.85"	0.28"	13pt Navy Bold
Agenda descriptor	**0.90"**	**+0.29"**	3.85"	0.25"	9pt Cool Grey — 0.29" below title
Left agenda column x-start	**0.40"**	**—**	—	—	Items 01–05
Right agenda column x-start	**5.20"**	**—**	—	—	Items 06–10
Phase column width (Slide 7)	**2.38"**	**—**	—	—	4 phases × 2.38" across 10" slide
Closing slide title	**0.40"**	**0.90"**	5.60"	1.60"	30pt White Bold
Closing slide contact block	**6.30"**	**1.30"**	3.40"	0.90"	11pt White
Closing slide CONTACT label	**6.30"**	**1.30"**	3.40"	0.25"	8pt Gold Bold, letter-spaced

6.5 Non-Negotiable Presentation Rules

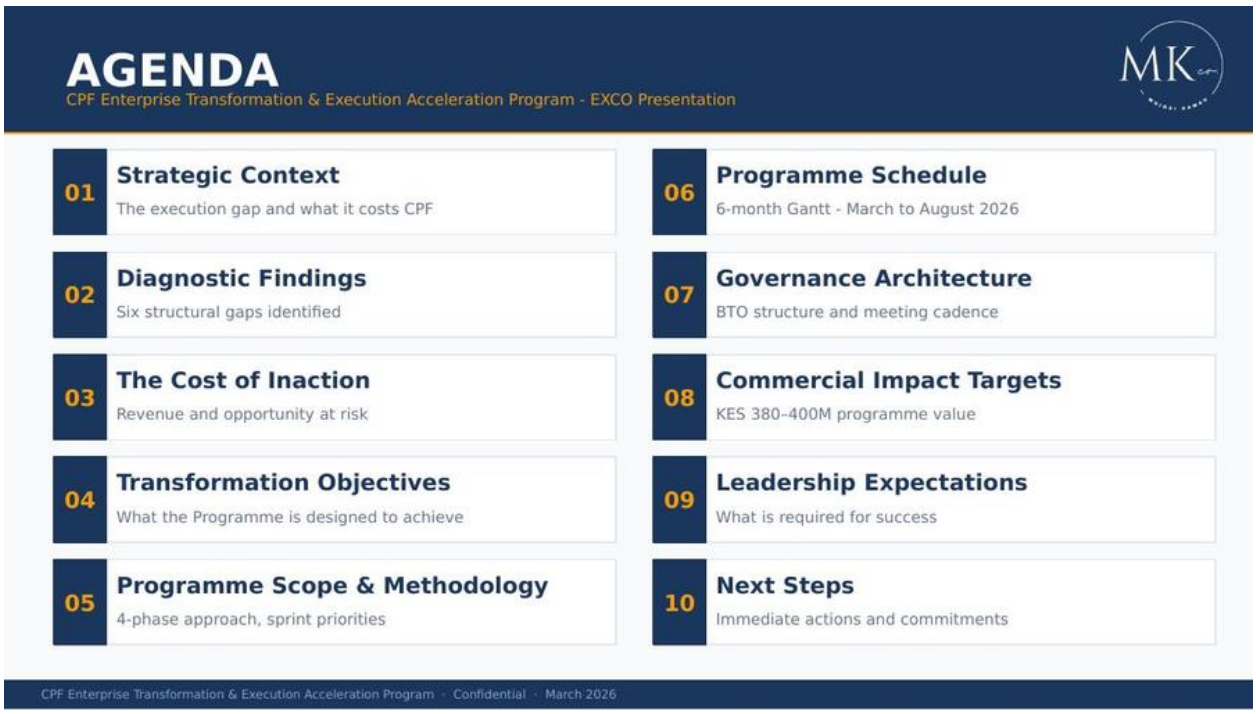
Rule	Requirement
Font — INTER only	Every text element in every slide uses INTER. No Arial, Calibri, or substitutes. If INTER is unavailable in the build environment, use Montserrat as fallback only.
No accent lines under titles	Never place decorative underlines or horizontal rules directly beneath slide title text. The Gold rule in the header is a structural element — it separates the header band from the content area, not the title from the body.
Slide dimensions fixed	10" × 5.625" (LAYOUT_16x9) strictly. Never use 4:3, Wide, or custom dimensions.
Header band on every content slide	Full-width Navy header (y=0" h=0.82") with Gold section number (22pt), White title (22pt), Gold subtitle (10pt) and Gold rule at y=0.82" on every content slide.
Footer on every content slide	Programme name · Confidential · Date in Cool Grey 8–9pt at y=5.20" on every content slide. Never omit.
Sprint ticker on title slide	Full-width Gold bar y=5.20" h=0.43" with Navy Bold 6.5pt text listing sprint priorities. This is mandatory on the title slide.

MK Logo placement	White variant on dark slides (top-left in header, ~x=0.10" y=0.05"). Navy variant on light/content slides (top-right, ~x=8.75" y=0.07"). Never place Gold logo on navy or Gold backgrounds.
Section numbers	Every content slide carries a two-digit section number in Gold 22pt Bold (e.g. 01, 02 ... 10). Numbers are zero-padded where below 10.
Colour codes exact	Use only the hex values specified in Section 6.3. Do not approximate Navy as "dark blue" or Gold as "orange." #1A365D and #F59E0B exactly.
Phase colours (4-col layout)	Phase 1=Gold #F59E0B, Phase 2=Navy #1A365D, Phase 3=Teal #0D7C5F, Phase 4=Dark Red #8B1A1A. These are the exact reference colours.
Status badge sizing	6.5pt Bold White text on coloured background pill. Sizes: In Progress=Green, Delayed=Red, Scheduled=Navy, Upcoming=Cool Grey, Sprint=Gold/Navy.
No gradients	Solid fills only. No gradient fills on any shape, background or text element.
Minimum margins	0.30" minimum from all slide edges. Content area: x=0.30" to 9.70", y=1.10" to 5.20" (inside header and footer bands).
Image sizing	If adding photographic images, use sizing type "cover" to fill the designated area without distortion. Maintain aspect ratio.

6.6 Visual Specimens — Reference Slides

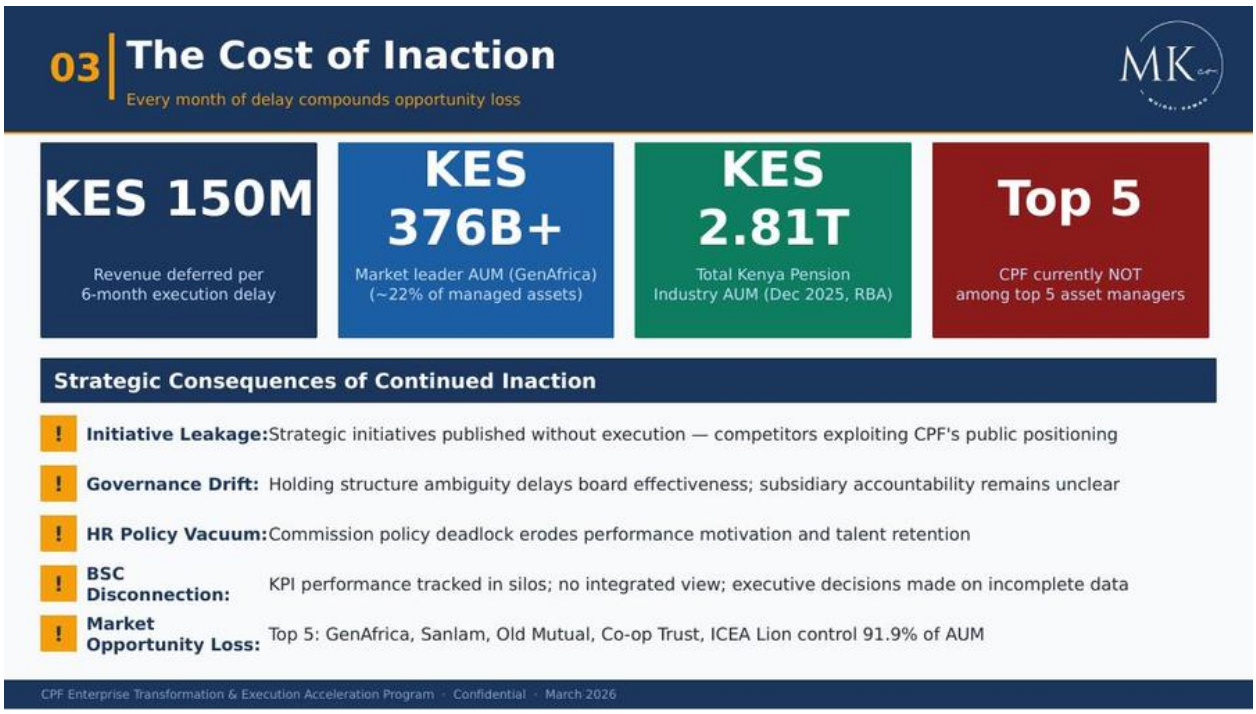
The following slides are extracted directly from the reference presentation. These are the authoritative visual benchmarks. Every future MK Consulting deck must match this format precisely.

Slide Type 1 — Title Slide. Full Navy background. White MK logo top-left. Firm name White Bold 10.5pt. Gold section label 7pt letter-spaced. Main title Gold Bold 32pt. Service theme boxes right column. Sprint priorities Gold ticker bottom.

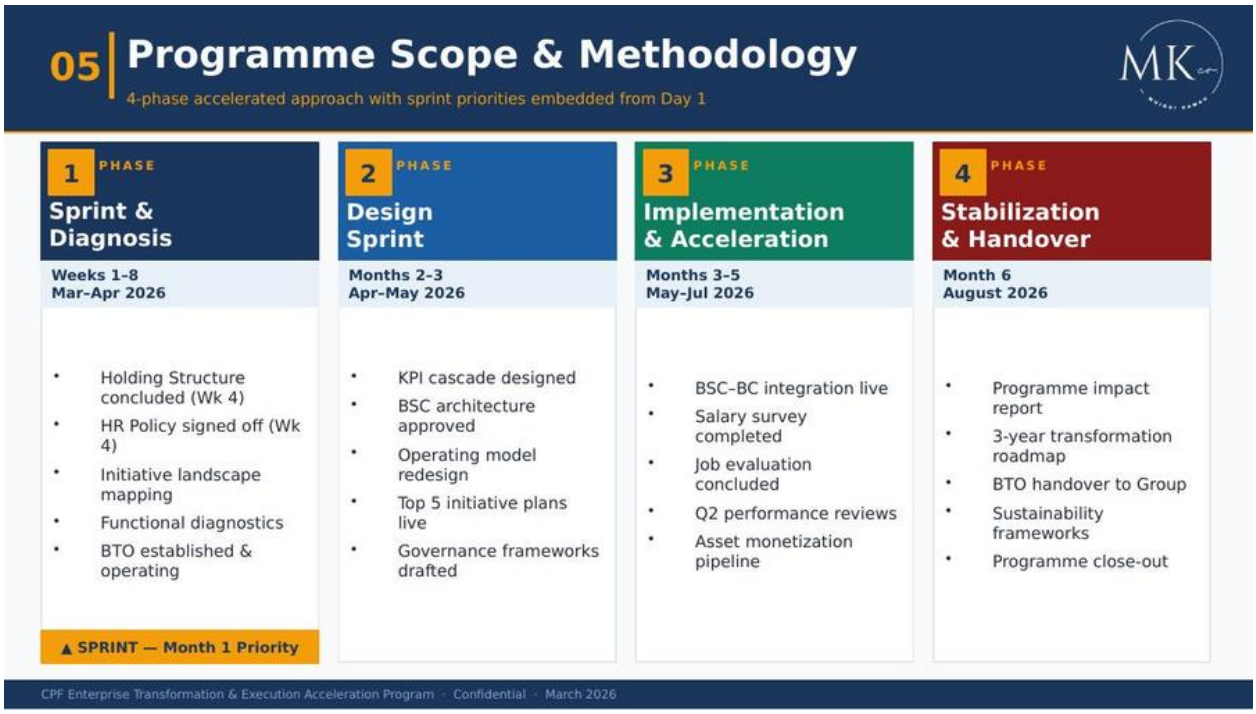


Slide Type 2 — Agenda Slide. White background. AGENDA in White Bold 26pt. MK logo Navy top-right. Two-column numbered grid: Gold number box (13pt), Navy Bold title (13pt), Cool Grey descriptor (9pt). Footer bar: programme · Confidential · March 2026.

Slide Type 3 — Content Slide (3-column variant). Navy header band. Gold section number 22pt + White title 22pt. Three equal-width content panels, each with Navy header, bullet body. Full footer bar.



Slide Type 3 — Content Slide (stat callout variant). Four large-number cards (28pt White Bold) across the top. Strategic consequences section below with Gold icon bullets. Footer bar.



Slide Type 3 — Content Slide (4-phase column variant). Each phase column: Gold/Navy/Teal/Red header with phase number (14pt), PHASE label (7pt Gold), phase title (13pt White Bold), date (8.5pt Navy Bold), bullet deliverables (9.5pt Dark Grey). Sprint label bottom-left.

Slide Type 5 — Closing Slide. Full Navy background. Gold title 30pt Bold left column with Gold horizontal rules. Four bullet value propositions. CONTACT label Gold Bold 8pt right column. Contact details: White 11pt, Gold email, Light Blue phone. MK logo top-right.

7. Iconography & Visual Indicator System

This section governs the selection, styling, colouring, and application of all icons, status badges, phase indicators, and data visualisation colour conventions across all MK Consulting documents and presentations.

7.1 Icon Style Standard

> *All icons used in MK Consulting materials must be outline (line) style with a consistent 2px stroke weight. Filled, solid, or gradient icons are never permitted under any circumstance.*

Attribute	Specification	Notes
Style	Outline / line icons only	No solid fills, no gradients, no sketchy or hand-drawn styles
Stroke weight	2px screen / 0.75pt print	Consistent stroke across all icons in a document
Colour — Standard	Navy (#1A365D)	Default for all icons on light (White / Light Grey) backgrounds
Colour — Emphasis / Active	Gold (#F59E0B)	Highlights a selected, active, or featured principle or value
Colour — On dark backgrounds	White (#FFFFFF)	When icon sits on Navy or Dark Grey background
Colour — Disabled / Inactive	Cool Grey (#64748B)	Used sparingly for inactive states only
Size — Word documents (body)	16–20pt equivalent	Inline or small callout icons
Size — Presentation slides	24–40pt equivalent	Paired with Gold Bold label text
Size — Hero / Section opener	48–64pt equivalent	Large feature icon for section dividers or principle pages
Gold corner rectangle	Gold solid block — NOT an icon	Image framing device only; not a substitute for icons
Approved libraries	Heroicons, Feather, or Phosphor	Outline families only; do not mix libraries in one document
Forbidden types	Clip art, emoji, 3D, filled solid, cartoon	Never permitted in any formal MK document or presentation

7.2 Icon Application by Document Zone

Zone / Context	Icon Role	Colour	Size
Guiding Principles page	One icon per principle, left of label	Gold or Navy	32–40pt
Core Values page	One icon per value, above or left of label	Gold or Navy	32–40pt
Services page (two-column)	Optional category icon beside service name	Navy	24–32pt

Why Choose Us differentiators	One icon per differentiator point	Gold or Navy	28–36pt
Next Steps / CTA page	Optional directional icon (arrow or chevron)	Gold	24–32pt
PowerPoint section dividers	Optional large feature icon centred	White (on Navy background)	48–64pt
PowerPoint content slides	Small supporting icon beside key bullets	Navy	16–20pt
Word SOPs and reports	Callout boxes only — avoid in body text	Navy	16pt max
Invoices	No icons permitted	N/A	N/A

7.3 Guiding Principles & Core Values — Icon Pairing Standard

Each Guiding Principle and Core Value is paired with exactly one outline icon. The label is Gold Bold. The icon is Navy (standard) or Gold (emphasis). Icon and label always appear together — never separately.

Guiding Principles — Approved Icon Themes

Principle	Icon Theme	Icon Colour	Label Style
Clarity First	Target / crosshair / bullseye	Gold	Gold Bold 10–11pt
Hands-On Execution	Wrench / tools / gear	Gold	Gold Bold 10–11pt
Evidence-Driven Decisions	Chart / graph / data bars	Gold	Gold Bold 10–11pt
Transparent Governance	Eye / shield / lock	Gold	Gold Bold 10–11pt
Timeliness & Responsiveness	Clock / timer	Gold	Gold Bold 10–11pt
Practicality Over Theory	Lightbulb / settings sliders	Gold	Gold Bold 10–11pt
Capability Transfer	Person / graduation / handshake	Gold	Gold Bold 10–11pt

Core Values — Approved Icon Themes

Value	Icon Theme	Icon Colour	Label Style
Integrity	Shield / checkmark / badge	Gold	Gold Bold 10–11pt
Excellence	Star / medal / trophy	Gold	Gold Bold 10–11pt
Client Centricity	Person-circle / focus ring	Gold	Gold Bold 10–11pt
Innovation	Lightbulb / atom / spark	Gold	Gold Bold 10–11pt
Collaboration	Handshake / people / link	Gold	Gold Bold 10–11pt
Empowerment	Raised fist / person-up / arrow-up	Gold	Gold Bold 10–11pt
Sustainability	Leaf / globe / recycle	Gold	Gold Bold 10–11pt

7.4 Phase Header Colours & Status Badge System

The following colour system governs phase-based section headers in programme delivery presentations, and RAG status indicators in progress reports and dashboards. These 21 colour specifications are derived directly from the CPF EXCO reference presentation (see Section 6.3) and apply to all MK programme delivery documents.

Label	Background Hex	Text Colour	Style	Use
PHASE HEADER COLOURS (Presentation Section Dividers)				
Phase 1 — Sprint & Diagnosis	#F59E0B (Gold)	Navy	Inter Bold 10pt	Diagnostic sprint header — Gold header
Phase 2 — Design Sprint	#1A365D (Navy)	White	Inter Bold 10pt	Design sprint header — Navy header
Phase 3 — Implementation & Acceleration	#0D7C5F (Teal/Green)	White	Inter Bold 10pt	Execution sprint header — Teal header
Phase 4 — Stabilisation & Handover	#8B1A1A (Dark Red)	White	Inter Bold 10pt	Handover sprint header — Dark Red header
STATUS BADGE COLOURS (RAG Indicators — 6.5pt Bold White on Filled Pill)				
In Progress	#1A7A4A (Dark Green)	White	Filled pill, 6.5pt Bold	RAG Green — on track
Delayed	#CC0000 (Red)	White	Filled pill, 6.5pt Bold	RAG Red — behind schedule
Scheduled	#1A365D (Navy)	White	Filled pill, 6.5pt Bold	Planned and confirmed
Upcoming	#64748B (Cool Grey)	White	Filled pill, 6.5pt Bold	Not yet commenced
Sprint Gate	#F59E0B (Gold)	Navy	Filled pill, 6.5pt Bold	Sprint milestone / gate marker

7.5 Data Visualisation & Chart Colour Conventions

Chart Element	Colour	Hex	Notes
Primary data series	Navy	#1A365D	First / dominant bar, line, or pie segment
Secondary data series	Gold	#F59E0B	Second series — highlight or contrast
Tertiary data series	Cool Grey	#64748B	Third series — supporting data
Positive variance / good	Dark Green	#1A7A4A	Favourable performance indicator
Negative variance / risk	Red	#CC0000	Unfavourable performance indicator
Neutral / baseline	Light Grey fill	#F9FAFB	Benchmark or reference line fill
Chart background	White	#FFFFFF	Always white — no shaded chart area backgrounds
Chart gridlines	Light border	#E2E8F0	0.5pt weight; subtle, never dominant
Chart title	Navy Bold	#1A365D	Inter Bold 12–14pt
Axis labels	Cool Grey Regular	#64748B	Inter Regular 9–10pt
Data labels on dark bars	White Bold	#FFFFFF	Navy Bold on light-coloured bars

Stat descriptor labels	Light Blue	#CCE0FF	Below large KES / stat figures on dark background (per Section 6.2)
KPI callout number	Gold or Navy	#F59E0B / #1A365D	Large 28–72pt; Cool Grey Regular label below

7.6 Stat Callout & KPI Card Format

KPI and metric callout cards follow a consistent format across all presentations and executive reports:

- Metric number: 28–32pt Bold, Gold or White on dark background (per Section 6.2 — exact size).
- Stat descriptor label: 9pt Regular, Light Blue (#CCE0FF) when on Navy background.
- Card background: White with Navy or Gold top border accent at 2–4pt weight.
- Cards displayed in groups of three or four horizontally across the content slide.
- Icon (optional): outline icon above or beside the number, 24–32pt, Navy.
- Never use filled circles or coloured card backgrounds for stat callouts — White cards only.

7.7 Sprint Priorities Ticker

A persistent Gold strip at the bottom of the Title Slide carrying sprint priority labels. This is a mandatory structural element on all Title Slides.

> *Format: [PROGRAMME NAME] · Sprint Priority 1 · Sprint Priority 2 — Navy Bold 6.5pt text on full-width Gold bar (y=5.20”, h=0.425”, x=0.00” to 10.00”).*

- Text colour: Navy (#1A365D) Bold inside the Gold bar only.
- Strip height: 0.425” / h=0.43” on the 10” × 5.625” slide canvas.
- Applies to: Title Slide and Agenda Slide only. Not on content or closing slides.
- Content: programme name, then sprint priorities separated by centred dot (·).

7.8 Iconography Rules — Non-Negotiable

Rule	Requirement
Outline only	NEVER use solid / filled icons. Outline style, 2px stroke, always.
No library mixing	NEVER mix icon libraries within a single document or presentation.
No emoji	NEVER use emoji as icons in formal MK documents or presentations.
No clip art / 3D	NEVER use clip art, cartoon, or 3D icons under any circumstances.
Icons need labels	On principle / value pages, icons MUST be paired with their label. Never used alone.
One icon per bullet	NEVER place more than one icon per bullet point or paragraph in body text.
Corner block ≠ icon	The Gold corner rectangle image device is NOT an icon. Never use it as one.
Consistent size	Always maintain consistent icon size within a single page or slide.
Correct colour for bg	Navy on light backgrounds. White on dark backgrounds. Gold for emphasis only.

8. Voice & Tone

The MK Consulting voice is consistent across all communications. The tone adjusts slightly by channel and audience — but the core character remains constant: professional, authoritative, and outcome-focused.

8.1 Brand Voice Traits

Trait	What It Means in Practice
Professional	Executive clarity. Structured, precise communication. No jargon or filler language.
Authoritative	Data-driven. Confident. Every claim is grounded in evidence, KPIs, or operational fact.
Approachable	Clear, human, and direct. Never condescending. Accessible to both technical and non-technical audiences.
Action-Oriented	Outcome-focused. Every recommendation drives toward a specific, measurable result.
Africa-Informed	Contextually relevant. Solutions are designed for African market realities, not imported templates.

8.2 Tone by Channel

Channel	Tone	Sample Copy
Advisory Documents / Reports	Formal, authoritative	"Our recommended approach ensures measurable efficiency improvements within the first 90 days of engagement."
EXCO / Board Presentations	Concise, executive, data-led	"KES 380–400M in commercial value is at risk. The following three decisions will determine whether it is captured or lost."
Proposals & Scoping Documents	Formal, specific, outcome-framed	"This engagement will deliver a prioritised implementation roadmap, governance framework, and SOP library within four weeks."
LinkedIn / Thought Leadership	Insightful, confident, conversational	"Operational discipline remains one of Africa's greatest competitive advantages — when executed with discipline."
Direct Comms (Email / WhatsApp)	Warm, concise, responsive	"Great connecting earlier. Sharing the document now. Response SLA: one business day."
Training Materials	Clear, instructional, practical	"Here are the three levers that most influence supply chain resilience in African markets."

8.3 Writing Rules

Rule	Requirement

Active Voice	Write in the active voice. "We recommend" not "It is recommended that."
Short Sentences	Keep sentences under 25 words where possible. Long sentences dilute authority.
No Filler	Cut "Please note that", "It is important to", "As mentioned above." Say it plainly.
Numbers Not Words	Use numerals for all figures: "3 recommendations" not "three recommendations." Exception: starting a sentence.
Dates	Format: March 2026. Never 03/2026 or 3rd March 2026 in formal documents.
Confidentiality	All formal documents carry "CONFIDENTIAL" on the cover and in every footer.
One Space	One space after a full stop. No double-spacing.
Oxford Comma	Use the Oxford comma in lists of three or more: "HR, Finance, and ICT."

9. Quick Reference Card

At-a-glance brand specifications for everyday use

This card consolidates all key brand specifications for rapid reference. Print or save for use alongside any document or presentation production workflow.

COLOUR

Navy	#1A365D	Headings, structure, table headers
Gold	#F59E0B	Accents, rules, callouts, CTA
White	#FFFFFF	Page background (dominant)
Cool Grey	#64748B	Body text, footers, subtitles
Light Grey	#F9FAFB	Alternating rows, cards, panels
Dark Grey	#1F2937	High-contrast body text

DOCUMENTS

Paper	A4	0.79 inch margins all sides
Cover	Dominant Navy bg	White logo + Gold firm name
TOC	2-column table	Gold number + Navy title
Footer	Gold top rule	Firm | Email | CONFIDENTIAL | Page
Tables	Navy header	Alternating grey rows
Callout	Gold border	Cream bg (#FFFBEB) + Navy italic

TYPOGRAPHY

H1	Inter Bold (700)	32pt | Navy
H2	Inter SemiBold (600)	26pt | Navy
H3	Inter Medium (500)	22pt | Navy
Body	Inter Regular (400)	11pt | Dark Grey
Caption	Inter Light (300)	9pt | Cool Grey
Fallback	Montserrat	Only if Inter unavailable

PRESENTATIONS

Title slide	Full Navy	White logo + White title + Gold sub
Dividers	Full Navy	Gold number (72pt) + White title
Content	White/Light Grey	Navy headings + Dark Grey body
Stats	Card format	Large number (Gold/Navy) + label
Ticker	Dark Navy strip	Sprint priorities in Gold 8pt
Margins	0.5 inch min	No accent lines under titles
